ENTERED JUNE 9, 1904, AT SAN FRANCISCO, CALIF., AS SECOND-CLASS MATTER

Protect the Infant Industry BY GUARDING AGAINST IMPURE MILK

The appalling infant mortality of the summer months is largely due to the dangerous quality of milk furnished most communities and particularly the larger cities. A Baltimore hospital recently examined the milk supplied to it and found an average bacterial content of over four million to the c. c. The New York Board of Health found many samples that ran over ten million; these are but instances.

Most peddled milk is absolutely dangerous during the summer months and is a leading cause of the high mortality in children. In many cities there are three deaths from Cholera-Infantum to one of Tuberculosis.

HIGHLAND BRAND EVAPORATED CREAM

Is absolutely pure, germ-free, always fresh. It is the simplest, yet the most complete substitute food for infants and invalids. Always ready. Just dilute with water q. s. and give to baby. Trial quantity free to physicians.

THOMAS J. CLARK, M. D., Lecturer on Dermatology.
LEMUEL PAYSON ADAMS, A. B., M. D., Demonstrator of Anatomy.
JAMES BURRIS WOOD, B. S., M. D., Lecturer on Organic and Applied Chemistry.
THOMAS A. WILLIAMS, M. D., Lecturer on Bacteriology.

REQUIREMENTS FOR ADMISSION.

One of the following qualifications:

(a) A certificate showing that the applicant has passed the regular examinations for admission to the University of California, Stanford University or any other University or College whose standard of admission is equivalent; provided that students deficient in Latin may be allowed one year to make up such deficiency.

(b) A certificate of graduation from an accredited high school or academy.

(c) A certificate of graduation from a normal school established by State authority. Attendance is required upon four regular courses of lectures of eight months each.

FEES.—Matriculation Fee (paid but once) \$5.00; Practical Anatomy Fee for each of two years, \$10.00; Tuition Fee (for each year of attendance), \$100.00; Graduating Fee (paid but once, but not returnable), \$25.00. Laboratory Fees are charged to cover the actual cost of material used.

Address all letters regarding College matters to EDWARD N. EWER, M. D., Registrar, 1111 Washington St., Oakland.

"The Preparation which made Coca known as a remedy"

FORMULA: Each half-litre bottle represents two ounces of specially selected, blended Coca leaves with nutritious Bordeaux Wine.

The following governmental analysis sustains our statements as to the purity of Vin Mariani.

FRENCH ANALYSIS

QUANTITATIVE ANALYSIS No. 247

The Director of the Municipal Laboratoire de Chimie certifies that Vin Mariani represents exactly:

Density, at 15° C	1.014
Alcohol, percentage in volume, at 17°	17.07
" by weight, per litre	142.9
Extractive, at 100° in grams, per litre	87.86
Sugar, before inversion, per litre	41.60
reduced after inversion, per litre	68.80
Sulphate of potassium, in grams, per litre ...	0.91
Tartrate, in grams, per litre	1.85
Ash	2.24
Acid, calculated as sulphuric	3.13
Acid sulphurous	none
Acid salicylic	none
Saccharin	none
Coloring matter	nothing abnormal
Deviation of polarimeter, before inversion ...	+2°44'
" after inversion	-2°16'
Coca bases, combined, in grams, per litre ...	0.220

SATISFY YOURSELF

There **is** a difference in adrenal-principle preparations.
Our chief claims for the superiority of Adnephryn Solution are, that

- (1) It is the **only permanent**, and
- (2) the **most active** solution of the adrenal active principle

You can easily determine whether or not the first of these claims is justified :

TEST

Take two **absolutely clean, colorless** ½-oz bottles. Into one pour say ¼ ounce Adnephryn Solution; into the other, a like quantity of any similar preparation. Cork tightly and allow to stand in diffused light. Examine every 2 to 4 hours and note results.

Coloration or precipitation is an infallible sign that the adrenal principle is being oxidized—destroyed! Adnephryn Solution remains colorless and clear under such conditions, retaining full activity. No other that we have found stands this test.

Permanence is an important point, for adrenal preparations are expensive. Adnephryn Solution **does not spoil** on your hands; it is **always good**.

The **greater activity** of Adnephryn Solution is shown both by physiologic tests and by everyday experience; for physicians accustomed to using other adrenal preparations find they can get the same results with smaller quantities of Adnephryn.

Adnephryn Solution is marketed in 1-oz glass-stoppered bottles. Sample mailed free to any physician on request.

Tyree's Powder

FOR SUMMER HYGIENE

TYREE'S ANTISEPTIC POWDER is now accepted even by skeptical physicians as a remedy to be depended upon. It was first used ten years ago by a few Washington physicians for diseased conditions of the genital tract. Now it is being used practically all over the world by the leading hospitals, physicians and dentists as a standard prescription to regulate diseased conditions of the mucous membrane, whether due to external or internal cause, and to keep it in a healthy condition attending a season when **Prickly Heat, Poison Oak, Eczema, Hydrosis, Lupus Vulgaris, Decubitus, Dysentery, annoying Pruritis, Vaginitis, Leucorrhea, Nasal**

Catarrh, Sore Throat, Ulcers, Wounds and kindred diseases are most prevalent. Its application is extremely simple and harmless even to children. The price is very economical. A sample, with the following valuable reprints, sent to physicians free of charge:

Some Obstetrical and Gynecological Treasures of the Army Medical Museum.

A Report on the Antiseptic Treatment of Surgical Cases at an Emergency Hospital Clinic.

Rational Treatment of Cholera Infantum and Kindred Diseases. Clinical Lines on Prickly Heat and Kindred Affections of the Skin. Treatment of Acute and Ordinary Decubitus. Dental Antisepsis, etc.

The most promising Therapeutic Agent since Antitoxin.

PROF. SIMON FLEXNER, President of the Rockefeller Institute for Medical Research, and his co-workers, have proved by experiments extending over three years, that cholera infantum is usually caused by infection with the bacillus dysenteriae (Medical Bulletin, University of Pennsylvania, November, 1902). During this period we have co-operated with Professor Flexner in preparing a serum for the curative treatment of cholera infantum and dysentery, and now offer, by his authority,

Mulford's Anti-Dysenteric Serum

from animals that have been thoroughly immunized, by a continuous treatment of nearly three years, against the bacillus dysenteriae, and recommend its use in the treatment of cholera infantum and dysentery.

The serum is a mixture of that obtained from the blood of horses immunized with each of the different types of bacillus dysenteriae, corresponding to those that do and do not ferment mannit.

Three-Fourths of the Mortality

occurring in children under four years of age is caused by cholera infantum, consequently, a curative serum that promises to reduce this mortality is a boon to humanity.

We are confident that Anti-Dysenteric Serum will reduce the mortality of cholera infantum and dysentery to the same extent that Mulford's Antitoxin has reduced the mortality of diphtheria.

Clinical Report

Shiga reports 1119 cases of dysentery treated at Tokio:

266 cases WITH serum, mortality, 9.6 per cent.
853 " without " " 32.6 per cent.

It is believed that cases treated early and with full doses will show a further reduction in mortality; the same rule applying with Anti-Dysenteric Serum as with Antitoxin.

The serum does not in any way conflict with the usual treatment, and is indicated in cholera infantum and dysentery, particularly when the discharges contain mucus and are tinged with blood.

DOSE.—For infants, 1 to 2 packages (10 to 20 c.c.); children and adults, 2 to 4 packages (20 to 40 c.c.) every four to eight hours. Mulford's Anti-Dysenteric Serum is furnished in aseptic glass syringes, each containing 10 c.c., price, \$2.00, and may be secured from the distributors of our Diphtheria Antitoxin.

SAN FRANCISCO

WASHINGTON, D. C., January 21, 1902

DR. HENRY E. WAITE, Pres. Waite & Bartlett Mfg. Co.

DEAR DOCTOR:—After three months of capable, unprejudiced, exhaustive labor and research, the authorities at the Barnes Hospital, U. S. Soldiers' Home, Washington, D. C., have given us an order for the Waite & Bartlett Mfg. Co. Static Electrical Machine and X-Ray Outfit which has been on trial there in competition with the Van Houten & Ten Broeck's (Otis, Clapp & Co.) apparatus.

Crucial tests, which are absolutely impartial, were made during the period the machines were on trial, because it was the purpose of those in charge of the matter to buy the best apparatus obtainable.

Simultaneously with that trial, another investigation was in progress at the Children's Hospital in this city, where the same makes of apparatus were in full operation, and this institution also concluded that the Waite & Bartlett Mfg. Co. equipment was the best, and we likewise received their order for the complete outfit.

These orders are the outcome of painstaking investigation, and the victory of the Waite & Bartlett Mfg. Co. in both cases is one to be proud of, for their apparatus is thus stamped as the best now in the market, both for therapeutic purposes and X-Ray work.

Another fact to prove the excellence of the Waite & Bartlett Mfg. Co.'s apparatus is that there have been eleven of their Static Machines sold recently in Washington, the purchasers being as follows:

The U. S. Senate
Dr. F. E. Gibson
Dr. Robt. Reyburn
Dr. H. H. Hawxhurst
The Children's Hospital

Dr. Frances B. Bishop
Dr. Gustavus Werber
Dr. Wm. H. Bishop
The Barnes Hospital, U. S. Soldiers' Home
Dr. F. A. Gardner (two outfits)

The U. S. House of Representatives
Dr. C. H. Heron
Dr. H. Krogstad
Dr. Mary Alice Brosius

Yours very truly,
Z. D. GILMAN

N. B.—This is a copy of letter received by us from our agent at Washington, which speaks for itself.

Yours truly,

IRON TROPON

(ALBUMEN AND IRON)

IS INTRODUCED EXCLUSIVELY TO THE MEDICAL PROFESSION

The Chemical Analysis of 1000 samples of its basis, Tropon, i. e. about $\frac{1}{3}$ meat and $\frac{2}{3}$ vegetable albumen, according to Dr. Aufrecht is as follows:

	PER CENT
Albumen	90.52
Fat	0.14
Carbohydr00
Water	8.78
Salts.....	0.61

Composition of Iron Tropon

91 $\frac{1}{2}$ % TROPON (peptonized)

6 % COCOA

2 $\frac{1}{2}$ % IRON

Forming a soluble, very palatable powder

To be taken in milk or water, (either hot or cold) also in sweet wine, etc.

Iron Tropon is put up in 100 grammes (3 $\frac{1}{2}$ oz.) tins only, containing sufficient quantity for 7 or 8 days at a dosis of a teaspoonful 3 times a day.

Iron Tropon retails at 75c per tin at all druggists. Special terms for hospitals and sanatoria.

"THE MOST RATIONAL AGENT."

Prominent medical men say this of *SOLUTION ADRENALIN CHLORIDE* in the treatment of Hay Fever. Diluted with four or five times its volume of normal salt solution and sprayed into the nostrils, this marvelous astringent and vasomotor stimulant affords prompt relief. Two or three applications daily usually serve to keep the patient in a state of comparative comfort.

SUPPLIED IN OUNCE GLASS-STOPPERED VIALS.

NOTE.—We also supply *ADRENALIN INHALANT*, a neutral oil solution containing 1-1000 Adrenalin Chloride (in ounce vials), and *ADRENALIN OINTMENT*, 1000 parts of a neutral base and 1 part Adrenalin Chloride (in collapsible tubes), both admirable agents in Hay Fever.

PARKE, DAVIS & COMPANY

HOME OFFICES AND LABORATORIES, DETROIT, MICH.

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

Collargolum & Unguentum Credé

(Soluble Metallic Silver—Von Heyden.)

(15 per cent. Collargolum Ointment—Von Heyden.)

Efficient but harmless blood and tissue disinfectants, which have given brilliant results in almost hopeless puerperal sepsis, epidemic cerebrospinal meningitis, anthrax, septic endocarditis, etc. When rapid effects are necessary **COLLARGOLUM** should be intravenously injected; but ordinarily **UNGUENTUM CREDÉ** is most conveniently employed.

Recommended by **Profs. Roswell Park, A. Jacobi, F. Forchheimer, W. B. Dorsett, H. J. Boldt, C. G. Cumston, Tillmanns, Dieckerhoff, Wenckebach**, and many others.

ORPHOL

(Betanaphthol-Bismuth—Von Heyden.)

FOR PRACTICAL INTESTINAL ANTISEPSIS.

A neutral, odorless and tasteless intestinal disinfectant and astringent, indicated in all gastro-enteric catarrhs, diarrhoeas, ptomaine poisonings, typhoid, etc.

XEROFORM

(Tribromphenol-Bismuth—Von Heyden.)

A BLAND, ODORLESS SUBSTITUTE FOR IODOFORM, being a powerful antiseptic, deodorant, desiccant, sedative and hæmostatic. Internally, it is an efficient remedy for adult cases of diarrhoea, typhoid, intestinal tuberculosis, etc.

CREOSOTAL and DUOTAL

(Creosote Carbonate—Von Heyden.)

(Guaiacol Carbonate—Von Heyden.)

NON-TOXIC AND NON-IRRITANT SPECIFICS FOR TUBERCULOSIS, PNEUMONIA, ETC.

Duotal is odorless and tasteless, while **Creosotal** is almost so. They never cause gastric disturbances, even in massive doses. In tuberculosis they stimulate the appetite, diminish or entirely obviate the characteristic symptoms, and produce a gain in weight.

Favorably reported upon by **Profs. A. H. Smith, W. H. Thomson, R. W. Wilcox, L. Weber, Jas. Tyson, G. Cornet, Rudolph Kobert, v. Leyden, Dujardin-Beaumetz**, and others.

Cystogen Aperient
GRANULAR EFFERVESCENT SALT OF CYSTOGEN

*An Anti-Uric Aperient and Urinary Antiseptic,
Eliminant and Prophylactic.*

CYSTOGEN APERIENT WILL PREVENT INVOLVEMENT OF THE KIDNEYS DURING THE COURSE OF INFECTIOUS DISEASES.

An effective prophylactic in all febrile conditions, particularly scarlet fever, diphtheria, typhoid and other infectious diseases accompanied by high temperature and retarding the activity of the kidneys. Stimulates excretion of urine and flushes the entire urinary tract with a dilute solution of formaldehyd, thus rendering the urine sterile. Inhibits the growth of pyogenic bacteria and prevents decomposition of urine.

Prevents formation of uric acid accumulations and dissolves concretions in their incipency.

CYSTOGEN APERIENT is particularly valuable in Gout, Rheumatism, Calculus, Cystitis, Gonorrhoea and all Infectious Fevers.

Dose: A heaping teaspoonful in water three or four times daily.

Samples and literature will be furnished on request of physicians.

CYSTOGEN CHEMICAL CO., St. Louis, U. S. A.

Formula—Cystogen, 5 grs.; Sodium phosphate, 30 grs.; effervescent mixture q. s. to the teaspoonful, (tartaric acid, citric acid, bicarbonate of soda.)

CLARK'S SANITARIUM

Established by ASA CLARK, M. D., Medical Superintendent of the State Hospital at Stockton, Cal.

Clark's Sanitarium for care and treatment of mental and nervous diseases, is located in the southwestern part of the City of Stockton and is surrounded by pleasant grounds, containing forty acres. The buildings are two stories in height and cover an acre. Their sanitary condition is perfect. The corridors are wide, airy and light, affording the patients who cannot be trusted out in the grounds—and all others on wet days—ample room for exercise.

The appointments are modern and comfortable. The food supplies and cooking are of the best, the milk, butter, chickens and eggs being products of the place and abundant. Any patient may have a special attendant if necessary, at a moderate additional cost.

For further information address DR. F. P. CLARK, Medical Supt., or JAMES M. ANDERSON, Business Manager
Stockton, Cal. P. O. Box 297. Phone, 351 Green
